IMRIE MINIATURES

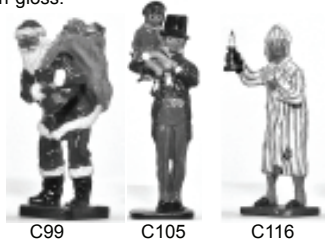

(U.S.A.) 54mm hand-painted pewter figures.

Christmas Figures

Most of these 54mm characters are derived from the Dickens classic, "A Christmas Carol". Before we carried these, my wife used to give me one every Christmas for a display we set out on our mantelpiece. These are the perfect evocation of the endearing Dickens characters, from the quizzical Scrooge, dressed in his night-shirt and peering into the murk with a flickering candle, to Tiny Tim, sitting atop his father's shoulder. There's even the Ghost of Christmas future pointing to Scrooge's tombstone!

Each figure: \$ 49.00

We will be glad to paint the figures of your choice in shiny gloss finish or flat matt colors. If you don't specify, we will paint in gloss.
